Plan Information

What is educational travel insurance?

This insurance covers individuals traveling abroad for educational purposes. Most educational travel insurance plans include accident and medical benefits as well as accidental death and dismemberment, emergency medical evacuation, and repatriation benefits. Chubb's Educational Travel insurance is uniquely designed to provide peace of mind and coverage for unexpected risks when traveling outside your home country.

Why do I need educational travel insurance?

Individuals traveling outside of their home country need assistance that will help them in the event of sudden illness or serious injury, since many health insurance plans do not extend beyond your home country. Educational travel insurance provides accident and sickness benefits and valuable travel assistance services to individuals while they are traveling outside of their home country. Chubb's

Educational Travel plans also meet the J-1 program Visa requirements for participants coming to the U.S.

What makes Chubb Educational Travel insurance plans the right choice?

Chubb is a premier global underwriter of travel insurance and travel risk programs covering individuals around the world. Our travel programs are especially designed to provide you with travel related benefits not typically covered by other insurance plans you may have. Chubb's comprehensive travel services are available to help you plan your trip and keep you informed and able to respond should an unexpected event occur while you are traveling.

How will I know which plan is best for me?

You may want to consider our comprehensive Travel Savvy®SM plan. This plan includes a \$250,000 maximum benefit for medical expenses, along with emergency evacuation and repatriation benefits, and travel inconvenience benefits like trip cancellation and interruption. All of our plans will respond with emergency medical benefits at the point of service if you are injured or become seriously ill while traveling. For shorter trips, you may find the Travel SenseSM plan provides the level of coverage you need.

Why should I spend the extra money to buy travel insurance?

The average travel insurance plan is a small percentage compared to what you paid for your travels. If an unexpected medical emergency happens, you could be looking at tens of thousands of dollars in out-of-pocket medical bills since many health insurance plans do not provide coverage when traveling internationally. If you are traveling to the US, many health insurance plans have high out-of-pocket costs when you are outside of your home network. Our Travel Savvy® or Travel Wise® plans include coverage for trip cancellation and interruption, emergency medical, personal accident, baggage, trip delay and security evacuation.
